

THE XPEL ULTIMATE PLUS™ DIFFERENCE

In 2011, we revolutionized the industry with the invention of the world's first self-healing paint protection film. XPEL ULTIMATE PLUS™ raises the bar once again with an unparalleled high gloss finish and improved impact protection for enhanced durability, making it the most advanced paint protection film on the market. With an industry first edge seal technology, XPEL ULTIMATE PLUS™ provides less distortion while maintaining maximum adhesion to painted surfaces.

☀ Absolute Clarity & Protection

Optically clear, zero orange peel finish leaves the film virtually invisible.

✓ Stain & Discoloration Resistant

Road grime, bird droppings, bug guts and air pollution will never leave the film stained or yellow, unlike lower quality alternatives.

✚ Self-Healing

When exposed to heat, the enhanced clear coat properties eliminate fine scratches and swirl marks over time.

ULTIMATE PLUS™
PAINT PROTECTION FILM

ULTIMATE PLUS™ PAINT PROTECTION FILM

THERE IS NO OTHER. XPEL ULTIMATE PLUS™ Paint Protection Film is the industry's glossiest, longest lasting, and most durable film available. With its self-healing properties, an optically clear finish, and superior stain resistance, XPEL ULTIMATE PLUS™ was born to perform. Ask for it by name **TODAY**.

WILL MY VEHICLES PAINT FADE OR LOOK DIFFERENT WHEN THE FILM IS REMOVED?

The paint protected by the film fades at the same rate as the paint left exposed, so there is no difference in appearance.

DOES THE FILM REQUIRE SPECIAL CARE?

No, special care is not required. Simply wash and wax your vehicle as you would normally.

CAN THE FILM BE REMOVED?

Yes, the film has a patented adhesive that allows for removal without damaging the paint.
